PROFESSIONAL SUMMARY

Combined **20+ years** of experience in web development, design, and project management. Expertise in the **MERN/LAMP** tech stack, with a specialization in enterprise-level applications for the financial, tourism, and higher education industries. Launched impactful solutions that have transformed operations and user experiences in these sectors. Passionate about **servant leadership**, **human development**, and **Generative AI**.

WORK EXPERIENCE

Boca Code - Senior Software Engineer Instructor

Boca Raton, FL | May 2022 - Present

- Spearheaded the initiative for three internships: UX/UI, UX/UI MERN, and Wordpress/PHP. The goal is to **empower graduates** with an in-depth grasp of software engineering principles, utilizing Generative AI, visual design concept, and project management leadership, **fostering an Agile mindset** through an **immersive agency-style experience**. The program has helped graduates launch their careers in software engineering, with **83.3% of interns being hired** thus far.
- Cultivated strong business relationships, leading to the successful hiring of **15** talented graduates for junior positions.
- Collaborate cross-functionally to plan and execute open houses, resulting in a revenue boost of **\$112,000** within 4 months.
- Elevated student project standards and **raised the bar** at the school by emphasizing modern UX/UI and mobile responsiveness, using a method similar to Project Lead The Way (PLTW) with a spiral curriculum approach.
- Pioneered the school's first **Generative AI** class, emphasizing **prompt engineering** and video synthesis, enhanced further through the utilization of **Natural Language Processing (NLP)**.
- **Curriculum:** HTML/CSS, JavaScript, MongoDB, MySQL, Express.js, React.js, Bootstrap, Sass, Gen AI, Git, Agile, PM

Banyan Hill - Web Project Manager / Front-End Developer

Boynton Beach, FL | Dec 2019 – Dec 2022

- Successfully **collaborated with cross-functional teams**, including Internal Marketing, e-Commerce Team, Creative, and Customer Service, to orchestrate webinar campaigns and marketing invites. Resulting in **\$12.6 million** in gross revenue.
- Initiated and executed a comprehensive revamp of a flagship website with over **375,000** subscribers, including **site architecture redesign**, **UI enhancements**, and the successful launch of the beta-version homepage.
- **Transformed interdepartmental communication** and workflows across 4 departments by introducing a project management tool, supporting **Agile methodologies**, resulting in the replacement of outdated methods, and **achieving significant time and cost savings**.
- Co-founded JavaScript Propulsion Lesson, a program aimed to **mentor** staff members with **JavaScript** and **React** skills.
- **Technology:** HTML/CSS, JavaScript, PHP, WordPress, React.js, Bootstrap, Asana, Git, SEO, Adobe Creative Suite

Lake Powell Adventure - Director of Creative and Technology

Page, AZ | Dec 2018 – Jan 2022

- Generated close to **\$1 million** in gross revenue over **3** years without any marketing expenses. Resulting in achieving first-page ranking for our website, initiating organic social media strategies, and increasing SEO and web traffic.
- Leveraged collaborative efforts with Page City council members and local businesses to establish a powerful network of **14** local businesses that collectively promoted tourism, resulting in enhanced visibility and increased visitor attraction.
- Managed technology and creative aspects of the business, including websites and social media materials.
- **Technology:** HTML/CSS, JavaScript, PHP, WordPress, Adobe Creative Suite, Social Media, SEO, Photography, Video

Legacy Research Group - Web Product Owner and Strategist

Delray Beach, FL | Oct 2018 - Dec 2019

- **Collaborated cross-functionally** with Editorial, Marketing, and Customer Service to successfully launch **12** products, optimizing inter-departmental protocols for improved efficiency.
- Implemented and **optimized an Ad Management System** for the Marketing team, utilizing intuitive naming conventions and used **industry best practices**. Resulting in streamlining and optimized workflow protocol inefficiencies.
- **Mentored team members** on solving problems from technical issues to creative. And at times simply lent a listening ear for team morale.
- **Technology:** HTML/CSS, JavaScript, React.js, WordPress, SEO, Jira, Git

Hidden Canyon Kayak - Head of Creative and Technology

Page, AZ | Jun 2012 - May 2018

- Transformed the company's financial performance, increasing revenue from less than **\$200k** to an **ARR of \$900k**, resulting in a **4X** in growth and profitability. Worked with the crew in-person to identify pain points and address their unique needs.
- Worked closely with the owner to create **efficient protocols** between kayak guides, designers and vendors to improve overall communication and workflow.
- In the field worked **side-by-side** as a kayak guide assistant to better understand the business and customer needs in a progressively changing landscape – both geographically and technologically.
- **Technology**: HTML/CSS, JavaScript, PHP, WordPress, Adobe Creative Suite, Social Media, SEO, Photography, Video

The Oxford Club - Web Project Manager

Baltimore, MD | Apr 2016 - Feb 2018

- Orchestrated a multi-departmental campaign effort—creative, editorial, marketing, retention and The Call Center (TCC)—to launch The Oxford Club's new exclusive member website for over **150,000** subscribers.
- Spearheaded the site development schedule, content migration strategy for 9,800 plus published materials, enterprise-level deployment strategy, post-launch QA prioritization, bug tracking and staff support/training of the new system.
- **Technology**: WordPress, Asana, Photography

NCSDO - Back-End Web Developer

Baltimore, MD | May 2002 - Feb 2013

- Worked with **WordPress** and **Drupal** for The Campaign for UPENN, Stanford, The Hope College Campaign, the Williams College admission site, and recruitment for St. John's College and Barnard College.
- Developed a lead generation admissions marketing program using personalized emails and urls to track student engagement and interest. Email listings ranged from **75,000** to **300,000** contacts.
- **Technology**: HTML/CSS, MySQL, WordPress, Drupal, Asana, Adobe Creative Suite, Photography, Video
